1. CALL TO ORDER

Chair Madrone called the meeting to order at 12:03 p.m.

1.A ROLL CALL

Present: 4 - Chair Dani Madrone, Vice Chair Robert Vanderpool, Committee member Maggie Sanders and Alternate Jasmine Vasavada

Excused: 2 - Committee member Rachel Grant and Committee member Chris Peters

1.B OTHERS PRESENT

City of Olympia Staff Dr. Pamela Braff
City of Olympia Staff Susan Clark
City of Olympia Staff Natalie Weiss
Department of Ecology Staff Henry Bell
Department of Enterprise Services Staff Brian Pickering
Port of Olympia Staff Jonathon Wolf
LOTT Clean Water Alliance Staff Jesse Barham
LOTT Clean Water Alliance Staff Wendy Steffensen

2. APPROVAL OF AGENDA

The agenda was approved.

3. APPROVAL OF MINUTES

- 3.A** [25-0756](#) Approval of June 6, 2025 Sea Level Rise Response Collaborative Executive Committee Meeting Minutes

The minutes were approved.

4. PUBLIC COMMENT - None

5. **ANNOUNCEMENTS - None**

6. **BUSINESS ITEMS**

- 6.A [25-0741](#) Briefing on Olympia Sea Level Rise Collaborative Five-Year Workplan (2026-2030)

Ms. Weiss provided a presentation.

The information was received.

- 6.B [25-0742](#) Approval of Amendments to the Olympia Sea Level Rise Response Collaborative By-Laws

Dr. Braff discussed proposed amendments to the Sea Level Rise Response Collaborative By-Laws.

Committee Member Sanders moved, seconded by Committee Member Vanderpool, to approve the Olympia Sea Level Rise Response By-Laws. The motion passed unanimously.

- 6.C [25-0743](#) Approval of a Recommendation to Refrain from Pursuing FEMA Levee Accreditation at this Time.

Ms. Weiss provided an presentation.

Committee Member Sanders moved, seconded by Committee Member Vanderpool to recommend that Members of the Olympia Sea Level Rise Response Collaborative refrain from pursuing FEMA Levee accreditation at this time. The motion passed unanimously.

7. **REPORTS**

Ms. Weiss shared reports from the City.

8. **OTHER TOPICS**

Mr. Bell introduced himself to the Committee Members and discussed Department of Ecology's role with the Deschutes Estuary Restoration project.

9. **ADJOURNMENT**

The meeting adjourned at 12:47 p.m.

Sea Level Rise Response Collaborative- Executive Committee

Election of Officers for the Sea Level Rise Response Collaborative Executive Committee

Agenda Date: 3/6/2026
Agenda Item Number: 6.A
File Number:26-0157

Type: discussion **Version:** 1 **Status:** In Committee

Title

Election of Officers for the Sea Level Rise Response Collaborative Executive Committee

Recommended Action

Move to elect the Sea Level Rise Response Collaborative Executive Committee Chair and Vice-Chair for 2026.

Report

Issue:

Whether to elect a Chair and Vice-Chair.

Staff Contact:

Natalie Weiss, Climate Resilience Coordinator, (360) 570-5828

Presenter(s):

Nomination and election process will be facilitated by the Executive Committee Chair.

Background and Analysis:

The bylaws of the Olympia Sea Level Rise Collaborative state that the Executive Committee officers include a Chair and Vice-Chair. Terms are for one year, and officers may serve multiple terms. A representative of any Member may serve as the Chair or Vice-Chair.

The bylaws state “The Executive Committee will select the Chair and Vice-Chair using its decision-making protocol each year at the March meeting. The previous Chair or Vice Chair will facilitate the selection of the next Chair. If the previous Chair and Vice Chair are no longer serving on the Executive Committee, the City of Olympia representative will facilitate the selection of the next Chair.”

Sea Level Rise Response Collaborative- Executive Committee

Update on 2026 Sea Level Rise Collaborative Workplan

Agenda Date: 3/6/2026
Agenda Item Number: 6.B
File Number:26-0158

Type: information **Version:** 1 **Status:** In Committee

Title

Update on 2026 Sea Level Rise Collaborative Workplan

Recommended Action

Briefing only. No action requested.

Report

Issue:

Update and discuss the 2026 Sea Level Rise Collaborative Workplan.

Staff Contact:

Natalie Weiss, Climate Resilience Coordinator, (360) 570-5828

Presenter(s):

Natalie Weiss, Climate Resilience Coordinator

Background and Analysis:

Staff will provide an update on the 2026 workplan items. The Committee approved the biennial workplan during the September 6, 2024 Sea Level Rise Collaborative Executive Committee Meeting.

The 2026 workplan includes the following tasks and actions by the Collaborative Partners.

- Continue to develop a sea level rise and flood monitoring strategy, which includes creating adaptive management trigger points, assessing vertical land motion, and updating sea level rise projections.
- Continue to develop guidelines for all SLR Collaborative members to incorporate sea level rise considerations into capital planning.
- Continue to evaluate funding and financing mechanisms to fund mid-term and long-term adaptation strategies.
- Pursue state and federal funding (as available) to fund design, planning, and implementation of mid-term adaptation strategies.

Climate Analysis:

The projects included within the 2026 workplan will help the Collaborative members more effectively adapt to sea level rise and mitigate the risks to community assets and critical services. This item is not expected to impact climate mitigation strategies to reduce greenhouse gas emissions.

Equity Analysis:

These initiatives will provide additional data and guidance on how to fund and implement sea level rise response strategies. When appropriate, staff will consider how data collection and analysis for these work items can be designed to improve our understanding of who may benefit and who will be impacted by future projects and funding.

Neighborhood/Community Interests (if known):

There is considerable community interest in sea level rise planning and implementation of flood protection measures in downtown Olympia.

Options:

Briefing only. No action requested.

Financial Impact:

The total cost to implement the 2026 workplan is \$180,000. Costs are shared across the Collaborative Members and the necessary funding was included in each Member's 2026 budget.

2025-2026 Workplan

Sea Level Rise Collaborative Workplan and Budget (January 2025 - December 2026)

Work Item	Description	Estimated Cost	Member Contributions		
			Olympia (50%)	LOTT (25%)	Port (25%)
1. Refine Sea Level Rise and Flood Monitoring Strategy Strategy IN-1	<p>Refine the sea level rise monitoring strategy to provide a basis for adaptive management, implementation, and timing of capital projects and funding needs. Work will include refining trigger points for future actions, identifying data needs, and developing a monitoring and reporting system to track sea level rise, vertical land motion, and storm-based flooding.</p> <p>This project is led by the SLR Collaborative Staff Liaison, with support from all partners. Additional costs are anticipated for consultant costs to address technical questions and refine trigger points for future action.</p>	\$80,000	\$40,000	\$20,000	\$20,000
2. Evaluate Vertical Land Motion Strategy IN-2	Evaluate existing data and resources to assess vertical land motion in the SLR Plan focus areas. Assess current conditions and develop recommendations for future monitoring.	N/A - Work incorporated into Sea Level Rise and Flood Monitoring Strategy project (IN-1)			
3. Develop Guidelines to Incorporate Sea Level Rise Considerations into Capital Planning Strategy POL-4	<p>Develop and recommend guidelines for the SLR Collaborative Partners to consider, plan, and design for sea level rise and increasing precipitation intensity in capital projects. Work will involve convening technical staff to review and assess current practices, and developing guidance to ensure that capital projects are designed and located to avoid (or adapt to) sea level rise and future flood risks.</p> <p>Note: This project may inform, but will not address updates to Olympia's Engineering Design and Development Standards.</p>	\$20,000	\$10,000	\$5,000	\$5,000
4. Investigate Long-term Public Financing Mechanisms	Continue to evaluate funding and financing mechanisms to fund mid-term and long-term adaptation strategies. Work will involve hiring a consultant to assess revenue levels needed to finance SLR adaptation strategies; convening a financial workgroup to evaluate revenue options and develop funding recommendations; conducting public outreach; and evaluating	\$175,000	\$87,500	\$43,750	\$43,750

Work Item	Description	Estimated Cost	Member Contributions		
			Olympia (50%)	LOTT (25%)	Port (25%)
Strategy FIN-1	the feasibility of funding sea level rise adaptation projects through an addition or modification to stormwater utility rates.				
5. Update Sea Level Rise Collaborative Website Strategy ED-1	Review and update the Olympia Sea Level Rise Response Collaborative webpage and develop/update outreach materials.	N/A - staff time only. This project is complete.			
6. Pursue State and Federal Funding Strategy FIN-3	Apply for grant funding to support design, planning, and implementation of mid-term adaptation projects.	N/A - staff time only. This project is led by the SLR Collaborative Staff Liaison, with support from all partners.			
7. Administrative Support and Project Management	Provide administrative support for the Executive Committee and staff-level Technical Work Group including meeting logistics, agenda setting, public notice, and record keeping. Lead and coordinate development and implementation of the Collaborative's annual work plan. Lead and coordinate ongoing education and outreach, sustain and enhance broader regional collaboration, and support long-term adaptation planning as described in the SLR Plan.	\$85,000	\$42,500 ¹	\$21,250	\$21,250
2025-2026 Total		\$360,000	\$180,000	\$90,000	\$90,000
Estimated Annual Total		\$180,000	\$90,000	\$45,000	\$45,000

¹ In-kind staff time contribution.
