Question applies to multiple boards

1. Briefly describe why you wish to serve on this advisory committee.

I came to Olympia when I was 15 in 2012 and went to OHS and SPSCC. I found what I wanted to build my career towards here, going to these schools, and have the amazing people here help guide me there. I have made so many what I consider life friends here, I met my partner here, and even some of my childhood friends from where I lived just moved up to the Olympia area. I have grown up here and am spending my young adult years in the South Sound and particularly Olympia. I plan on staying here and living out my life in this beautiful area and I am committed to helping it grow. This is why I want to serve on an advisory committee in Olympia, but I particularly want to serve on this oversight board. Over the last year, I have become ever more committed to this community. I love this area and its people and this is going to be the most pivotal moment in a lot of our lives. As a Mexican American and a young adult living here, I can't stand by and watch the world go by. I had a strong civic passion before 2020, but it has intensified recently. Being on this committee gives me a chance to help make a difference in a matter that will be absolutely consequential to our community. The work this committee will take on will define us for years and I know I must be a part of it as someone who is part of Olympia's diversifying, professional, and civic-minded youth. I believe that it is imperative to have someone from this group as a representative in the Police Use of Force Events Board because this people like me that are increasing those subjected to sad use of force and this is so people like me that are joining the ranks of OPD to help move the needle. I wish to serve on this board because this is my hope that I can be the person from Olympia's modern face to help continue the work being done to make our communities safer and our police more effective/community oriented.

Question applies to multiple boards

2. Describe your experience, qualifications, and/or skills which would benefit this advisory committee.

I have engaged in civics and advocacy as part of my career and understand very well the relationships between city government and its people, including a city's police department, which also includes my time serving on another citizen's board where I went to school at UW Tacoma. I studied Law at UW Tacoma and focused on law's implementation in my studies. Lastly, touched on briefly in question 1, I believe I also have a unique perspective and experience as a young POC Olympian that provides a social equity lens alongside a public safety sense.

Question applies to multiple boards

3. Describe your involvement in the Olympia community.

I have been building a career in state government and joining the ranks of many people in Olympia that work in state government or politics. Though, I have unfortunately not been accepted to other citizen committees I have applied for here and have not had a chance to be specifically involved in Olympia.

Skills

I am knowledgeable in politics, economics, public policy, and law and am proficient at analyzing, researching, and compiling reports for such areas. In so, I am effective at communicating the complexities of these subjects to various audiences. In addition, through my lobbying experience I have worked extensively on developing solutions to complex societal issues, such as college affordability, housing, and transportation and have built a strong ability to connect and organize individuals to tackle such issues. A couple of examples of this work is my involvement in bringing a student housing program to house homeless students at UW Tacoma and my efforts to successfully pass HB 2158, which provided huge financial gains to the state's higher education system. Through these experiences, I have built a strong network in and out of Olympia to work with on a variety of current and future projects.
