[21-0137](#) Approval of Final Details for Eastside St. Art Crossing

Eastside St. Art Crossing project artist Andrea Wilbur-Sigo presented the final design details for **Unity**. Those included the addition of imagery on the reverse side of the

sculptures, based on basket weaving imagery as well as flipping the placement of the sculptures as originally presented. Ms. Wilbur-Sigo also presented details on the foundation and installation brackets, stain and sealant, lamination of the cedar, and lighting, as well as a final budget.

Ms. Johnson asked about the bracket, which will be galvanized, whether the wood elements, once affixed to the bracket, would be removable for conservation (yes), if the wood would be installed above the base plate (yes), and if Ms. Wilbur-Sigo had used laminated cedar before in an exterior application (yes, one project 14 years old).

Regarding the plaques, Ms. Wilbur-Sigo noted she would like to include the stories of the sculptures in written and/or audio form. Commissioners discussed photo documenting of the process, and Commissioner Murray offered to take photos. Ms. Wilbur-Sigo welcomed Commissioners to visit her studio to observe the carving process, to be coordinated by staff.

Vice-Chair Burlingame moved, seconded by Commissioner Hicks, to approve the final design details and budget for the Eastside St. Art Crossing Project. The motion passed unanimously.
