

During September and October, the City asked for feedback on the second draft of the update to the Transportation Chapter of the Comprehensive Plan.

We heard from:

- **Members of the public** who answered a survey on Engage Olympia.
- The City's **Bicycle and Pedestrian Advisory Committee**, a group of volunteers who offer guidance on policies related to bicycle and pedestrian transportation.
- The City's **Planning Commission**, another group of volunteers who advise on policies that affect the long-range growth of Olympia.

What we heard

In general, people support the direction of the plan.

The Planning Commission has asked for some changes before it holds a public hearing. We will update the chapter to reflect that and post it to Engage Olympia by December 16th. People can comment on that draft either by email or at the public hearing.

When the public hearing is scheduled, we will post the date to [Engage Olympia](#).

Who visited Engage Olympia?

During September:

229 people visited the Engage Olympia page

70 people downloaded at least one document

17 people answered a survey
