

Draft Comprehensive Plan Policies Addressing Dark Skies

Natural Environment Chapter:

GN10 Artificial sources of nighttime light are minimized to protect wildlife and vegetation, and preserve views of the night sky.

PN10.1 Design nighttime lighting that is safe and efficient by directing it only to the areas where it is needed. Allow and encourage reduction or elimination of nighttime light sources where safety is not impacted.

PN10.2 Eliminate or reduce lighting in proximity to streams, lakes, wetlands, and shorelines so as not to disrupt the natural development and life processes of wildlife.
