Olympia, WA 98507-1967

Subject: Wellington Heights, Project No. 18-1315

Dear Ms. Smith,

Please accept this letter as a formal response to the comment period for the above-mentioned project.

The proposed project currently lies within the Hansen Elementary School, Marshall Middle School, and Capital High School service areas. Under the current service area model the district would provide transportation for any students generated from the development.

Periodically we re-evaluate services areas. Therefore, there is no assurance the service areas will remain as is.

If you need any further clarification or have questions, please feel free to contact me at 360-596-8563.

Sincerely,

Tricia Nicholas
