2015 Neighborhood Matching Grant Program
Evaluation Ranking

Projects ranked from 1 to 15 are recommended for approval based on a ranking of all projects as rated by the application review team using project criteria as described in the accompanying staff report, factoring in recommended grant amounts. These bring the total amount of recommended funding to just under \$23,000.00, the amount approved by City Council for 2015 neighborhood matching grants.

Shaded projects are not recommended for funding because their ranking places them over the \$23,000.00 threshold for approved grant funding.
