Ave. reclassification and maintaining Pacific Ave. as an urban corridor.

Crest area. The motion passed unanimously.

Commissioner Horn recused himself from the discussion and vote on the reclassification of 9th Ave.

Discussion:

- The problematic nature of the area without direct street access to Pacific Ave other than Boulevard Rd.
- Hearing examiner recommendation for rezone is suggested to be contingent on reclassification of 9th Ave.
- Development of an annual comprehensive plan amendment to change the boundary for the urban corridor.
- 60 foot right of way was codified in 1890 and extending the road width to 60 feet will not infringe on private property.
- Potential of increased traffic on Boulevard might inhibit, rather than support, greater density and pedestrian movement.
- ADA compliance is part of every road improvement unless conditions necessitate a variance.

Commissioner Brown moved, seconded by Vice Chair Andresen, to recommend as part of the Annual Comprehensive Plan Amendments of 2015 to Update the Transportation 2030 Maps of the Plan and reclassify 9th. Ave. as a neighborhood collector street. The motion passed with Commissioners Parker, Ragland, Andresen, Brown and Bateman voting in favor, and Commissioners Richmond and Hoppe voting against.
