Councilmember Langer referred Ms. Shaputis to the Department of Health regarding her concern about wi-fi in schools being a health hazard. He also thanked Mr. Johnson and Ms. Pete' for their comments. Councilmember Cooper asked the Council for consensus on sending a letter to the State regarding divesting from fossil fuels. completing the Comprehensive Plan, but expanded the scope of work.

Mr. Stamm noted the Land Use and Environment Committee recently discussed the Comprehensive Plan update process. The questions for Council discussion tonight are: 1) whether to extend the update completion from December, 2013 to June, 2014, 2) whether to retain a clear-writing consultant to make recommendations regarding the Council-review draft, and 3) whether the May addendum alternative should be returned to the Planning Commission for further review and refinement as soon as possible.

Councilmember Langer, as Chair of the Land Use and Environment Committee, reviewed the Committee's recommendation to extend the timeline to June, 2014, retain the services of a third-party consultant to consult on "Plaintalk" guidelines, and return the Comprehensive Plan May addendum to the Planning Commission for additional review and refinement.

Council Discussion:

- Supportive of the June, 2014 extension in order to get a better document.
