

Hello Kristi,

To answer your questions;

For the detailed site plan I have uploaded all the drawings to the online permit portal.

For other questions, I have answered here;

Uses: Identify all existing/proposed onsite uses:

1. What are the current onsite uses?

1. Is the house used as a residence? Yes, the house is used as a residence.
2. Is the garage used as a garage or a commercial business? Yes, the garage is used as an in-home pet grooming business. This business is Happy Paws.
3. Is the business a home occupation for the residence? Yes.
4. How are onsite storage buildings used? The storage unit is used as a garage storage for the residence, the in-home pet grooming business and the owner's storage for his restaurant business.
5. How are expansions of storage buildings intended to be used? These expansions of storage buildings are to be used for the upcoming commercial Pet grooming business. Please see pages 1-7 on online permit portal.
6. How many RV's are stored onsite? Are they associated with the residence? There one RV onsite that belongs to a friend of the residential tennet's. This RV is temporarily stored onsite.
7. What new uses (since 2018 building permit) are proposed. The new uses being proposed are to rezone the building to a commercial business. Please see pages 1-7 on online permit portal.

Thank you for your help and assistance with this process. For any further questions please let me know.

Thank you,  
Michael Fung
