

**Ordinance No. \_\_\_\_\_**

**AN ORDINANCE REVISING FEES FOR ENGINEERING, BUILDING, FIRE, AND LAND USE PERMITS, INSPECTIONS, AND PLAN REVIEW AND AMENDING OLYMPIA MUNICIPAL CODE SECTIONS 4.04.010, 4.36.010, 4.36.020, 4.38.010, AND 4.40.010, AND DELETING OLYMPIA MUNICIPAL CODE SECTIONS 16.32.045, 16.32.046, 16.32.047, AND 16.32.048**

**WHEREAS**, the Development Fee Revenue Fund was created by the Olympia City Council's adoption of Ordinance No. 6983 to more accurately record the fee-supported portion of the City's costs to provide permit review and inspection services; and

**WHEREAS**, Ordinance No. 6983 also states that the Olympia City Council shall establish a Target Fund Balance and policies for management of the Target Fund Balance for the Development Fee Revenue Fund; and

**WHEREAS**, Resolution No. M-1864 established policies to manage the Development Fee Revenue Fund, including a cost recovery target of 85 percent of City costs to provide review and permit services; and

**WHEREAS**, the City Council adopted Ordinance No. 7306 which directed that, to ensure development permit fees continue to include consideration of the increased cost to the City to perform development review services, the City Manager propose an increase to building permit fees (excluding those based on valuation), land use planning review fees, and development engineering fees on an annual basis consistent with annual adjustments to the City's labor contracts concurrent with the City Manager's proposed annual operating budget; and

**WHEREAS**, there is a need to move fire life safety inspection fees from OMC Chapter 16.32 (fire code) to Chapter 4.38 (fire system fees) and consolidate with fire plan review and permit fees; and

**WHEREAS**, there is also a need to adjust development permit fees including building permit fees, land use planning review fees, development engineering fees, and fire plan review, permit and life safety inspection fees to reflect the City's updated labor contracts and to more closely align them with the target adopted in Resolution No. M-1864 for recovery of the City's cost to provide permit review and inspection services;

**NOW, THEREFORE, THE OLYMPIA CITY COUNCIL ORDAINS AS FOLLOWS:**

**Section 1. Amendment of OMC 4.04.010.** Section 4.04.010 of the Olympia Municipal Code is hereby amended to read as follows:

**4.04.010 Assessment of fees**

**Section 2. Amendment of OMC 4.36.010.** Section 4.36.010 of the Olympia Municipal Code is hereby amended to read as follows:

**4.36.010 Building code review and permit fees**

A. The determination of value or valuation under any of the provisions of this code is made by the building official based on the valuation data established by the International Code Council under the provisions of building standards valuation data or other supporting data. The value to be used in computing the building and building plan review fees is the total of all construction work for which the permit is issued, as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire extinguishing systems, and other permanent equipment. Single-family and duplex dwellings of wood frame construction having an area of more than 2,500 square feet per unit are valued at "good construction" rate. All others are valued at "average construction" rate. Remodels are valued based on the contract price of the project or as determined by the building official.

B. Payment of fees. A permit is not valid until the fees prescribed by law have been paid, nor may an amendment to a permit be released until the additional fee, if any, has been paid.

C. Schedule of permit fees. On buildings, structures, gas, mechanical, and plumbing systems or alterations requiring a permit, an applicant shall pay the fee for each permit as required using the current fee schedule.

D. Plan Review Fees: When submittal documents are required, an applicant shall pay the plan review fee at the time of submitting the submittal documents for plan review. The current fee schedule as adopted establishes the plan review fee. The actual permit fees and related plan review fee is determined upon completion of the plan review and the balance owing must be paid at the time of permit issuance.

The plan review fee is a separate fee from the permit fees specified in this section and are in addition to the permit fees.

When submittal documents are incomplete or changed so as to require additional plan review or when the project involves deferred submittal items, the applicant shall pay an additional plan review fee at the rate shown in the current fee schedule.

E. Building permit valuations. The value to be used in computing the building permit and building plan review fees is the total value of all construction work for which the permit is issued, as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire extinguishing systems, and any other permanent equipment. Contractor's overhead and profit is also included. The Valuation factor is used in assessing the building permit for installation of Sign and Commercial Landscaping permits (plan review for Signs and Commercial landscaping will be 65 percent of the permit).

F. Investigation Fees: Work without a Permit.

1. Investigation. Whenever any work for which a permit is required by this code has been commenced without first obtaining said permit, a special investigation must be made before a permit may be issued for such work.

2. Fee. A property owner or other responsible party shall pay an investigation fee, in addition to the permit fee, whether or not a permit is then or subsequently issued. The investigation fee is equal to the amount of the permit fee required by this code. The minimum investigation fee is the same as the minimum fee set forth in the currently adopted fee schedule. This fee is an additional, punitive fee and does not apply to any Grading or Building Permit Fee that may subsequently be issued. Payment of the investigative fee does not vest the illegal work with any legitimacy, nor does it establish any right to a Permit for continued development of that project. If the work done remains illegal for 90 days after service of the Stop Work Order, it is considered hazardous and must be abated per the Olympia Municipal Code.

3. The payment of such investigation fee does not exempt any person from compliance with all other provisions of this code nor from any penalty prescribed by law.

G. Fee Refunds. The building official may authorize the refunding of:

1. 100 percent of any fee erroneously paid or collected.
2. Up to 80 percent of the permit fee paid when no work has been done under a permit issued in accordance with this code.
3. Up to 80 percent of the plan review fee paid when an application for a permit for which a plan review fee has been paid is withdrawn or canceled before any plan reviewing is done. The building official may not authorize refunding of any fee paid except on written application filed by the original permittee not later than 180 days after the date of fee payment.

H. Fee Exempt Permits:

1. Agricultural/deer fences up to eight feet tall

#### **B. Fire Plan Review Fee:**

The fire plan review fee is 65 percent of the fire permit fee and is collected in addition to the fire permit fee noted in this chapter.

#### **C. ~~Other~~ Fire Life Safety Inspections and Fees:**

The fire chief, or the fire chief's designee, is authorized to assess a base rate for inspections made of commercial and multifamily buildings under International Fire Code Chapter 1, Section 104. The base rate is assessed at the time the inspection is made. The initial amount of said base rate is based on the following formula for each building or occupancy as determined by the fire chief or designee:

**Square Footage Factor (includes inspection and clerical time):**

<u>Building / Occupancy Size</u>	<u>Hours</u>	<u>Fee (at \$85/hr)</u>
<u>Less than 3,000 sq. ft.</u>	<u>1 hr</u>	<u>\$85.00</u>
<u>3,001 – 10,000 sq. ft.</u>	<u>2 hrs</u>	<u>\$170.00</u>
<u>10,001 – 40,000 sq. ft.</u>	<u>3 hrs</u>	<u>\$255.00</u>
<u>40,001 – 80,000 sq. ft.</u>	<u>6 hrs</u>	<u>\$510.00</u>
<u>80,001 – 260,000 sq. ft.</u>	<u>9 hrs</u>	<u>\$765.00</u>
<u>Over 260,000 sq. ft.</u>	<u>12 hrs</u>	<u>\$1,020.00</u>

**Risk Factor (determined by RAFTER scoring):**

Risk classification is determined through the Olympia Fire Department's RAFTER (Risk Assessment Frequency and Evaluation Rating) system, as outlined in the Department's Community Risk Assessment and Standard of Coverage. RAFTER scoring evaluates occupancies using five weighted factors:

1. Occupancy Risk – hazard level and use type.
2. Occupant Risk – number and mobility of occupants.
3. Fire Protection Features – suppression, detection, and alarm systems.
4. Building Risk – construction type, height, and condition.
5. Community Impact – criticality to public safety, economy, or infrastructure.

<u>Risk Level</u>	<u>RAFTER Category</u>	<u>Score Range</u>	<u>Description / Criteria</u>
<u>1 – Low Risk</u>	<u>RAFTER 3</u>	<u>40–60</u>	<u>Occupancies with limited fire load, stable construction, and minimal public impact. Includes small offices, retail spaces, and low-hazard storage uses with compliant systems.</u>
<u>2 – Medium Risk</u>	<u>RAFTER 2</u>	<u>20–39</u>	<u>Occupancies with moderate hazards or system complexity.</u>

			<u>such as restaurants, mid-sized mercantile, or multi-tenant buildings. Contain suppression or alarm systems requiring periodic verification.</u>
<u>3 – High Risk</u>	<u>RAFER 1</u>	<u>0–19</u>	<u>Occupancies with significant fire or life safety risk, such as hospitals, industrial facilities, or high-hazard uses. Often contain complex systems or hazardous materials with potential for significant community impact.</u>

Fees shall be billed directly to the party responsible by the director of administration or designee.

### **Other Inspections and Fees**

Inspections outside of normal business hours, per hour (minimum charge - two hours)	<del>\$199.01</del> <u>\$204.38</u> *
Reinspection fees	<del>\$199.01</del> <u>\$204.38</u> *
Inspection for which no fee is specifically indicated, per hour (minimum charge one-half hour)	<del>\$199.01</del> <u>\$204.38</u> *
Additional plan review required by changes, additions, or revisions to approved plans, per hour (minimum charge – one hour)	<del>\$199.01</del> <u>\$204.38</u> *
For Stop Work being issued (work being done without permit)	<del>199.01</del> <u>\$204.38</u>

\*Or the total hourly cost to the jurisdiction, whichever is greatest. This cost includes supervision, overhead, equipment, hourly wages, and fringe benefits of the employees involved.

The tenant or owner of the building shall pay the fee, as determined pursuant to an inspection accounts process established by the Olympia Fire Department.

Fees are billed directly to the party responsible by the director of administrative services. For accounts delinquent for more than 30 days, the director is authorized to assess a monthly fee of \$5.00 or one percent, whichever is greater, and may revoke the business license of the party responsible after giving that party an

informal hearing to show cause why the license should not be revoked; or the director may use any other lawful means to collect the obligation, including the use of collection agencies.

These provisions equally apply to buildings owned or leased or otherwise used by other governmental jurisdictions and to buildings generally for which a business license has not been procured, insofar as such buildings are within the coverage of the International Fire Code. Collection of the fees from said jurisdiction may be accomplished by any available legal means.

**Section 5.** Amendment of OMC 4.40.010. Section 4.40.010 of the Olympia Municipal Code is hereby amended to read as follows:

**Section 6.** Amendment of OMC 16.32.045. Section 16.32.045 of the Olympia Municipal Code is hereby deleted as follows:

**~~16.32.045 Inspection fee—Assessed~~**

~~The fire chief, or the fire chief's designee, is authorized to assess a base rate for inspections made of commercial and multifamily buildings under International Fire Code Chapter 1, Section 104. The base rate shall be assessed at the time the inspection is made. The initial amount of said base rate shall be based on the following formula for each building or occupancy as determined by the fire chief or his or her designee:~~

~~(Square Foot Factor)\* multiplied by (Degree of Difficulty Factor)\*\* multiplied by (Base Rate)\*\*\* = Inspection Fee~~

~~-~~

~~\*Square Foot Factor:~~

- |               |              |                                     |

| <del>#6</del> | <del>=</del> | <del>80,001 Sq. Ft. or higher</del> |

~~\*\*Degree of Difficulty Factor:~~

~~#1—Low. Basic fire inspection on fire extinguishers, exiting, combustibile storage, minimal International Fire Code knowledge.~~

~~#2—Medium. Basic (1) plus knowledge on hood/duct systems, fire extinguishing systems, fire alarm systems. Considerable knowledge on International Building Code, International Fire Code, and their adopting ordinances, National Fire Protection Association 13 (Installation of Sprinkler Systems), National Fire Protection Association~~

~~72 (National Fire Alarm Code), National Fire Protection Association 96 (Ventilation Control and Fire Protection of Commercial Cooking Operation).~~

~~#3—High. Extensive knowledge of (1) and (2) plus International Building Code, International Fire Code, National Fire Protection Association, National Electrical Code, International Mechanical Code, and their adopting ordinances. Special hazards, flammable and combustible liquids, special systems (CO2 Carbon Dioxide Extinguishing System).~~

~~\*\*\* Base Rate = \$39.00 commencing January 1, 2009. Commencing January 1, 2010 and each year thereafter on January 1, the Base Rate shall be increased by the Seattle CPI-W (June) for the previous year, but no less than two percent (2%). Such Base Rate increases shall be rounded up to the nearest dollar.~~

~~This fee shall cover the initial inspection and one follow-up visit. Any additional follow-up inspections necessitated by noncompliance and inspections for which no fee is specifically indicated, shall be billed at \$85.00 per hour.~~

**Section 7.** Amendment of OMC 16.32.046. Section 16.32.046 of the Olympia Municipal Code is hereby deleted as follows:

**~~16.32.046 Inspection fee—Payment obligation~~**

~~The obligation to pay the fee assessed in Section 16.32.045 shall fall to the tenant or the owner of the building as determined pursuant to an inspection accounts process established by the Olympia Fire Department.~~

**Section 8.** Amendment of OMC 16.32.047. Section 16.32.047 of the Olympia Municipal Code is hereby deleted as follows:

**~~16.32.047 Inspection fee—Collection procedure~~**

~~The fees established in Section 16.32.045 shall be billed directly to the party responsible by the director of administrative services. For accounts delinquent for more than 30 days, the director is authorized to assess a monthly fee of \$5.00 or one percent, whichever is greater, and may revoke the business license of the party responsible after giving that party an informal hearing to show cause why the license should not be revoked; or the director may use any other lawful means to collect the obligation, including the use of collection agencies.~~

**Section 9.** Amendment of OMC 16.32.048. Section 16.32.048 of the Olympia Municipal Code is hereby deleted as follows:

**~~16.32.048 Inspection fee—Applicability~~**

~~Sections 16.32.045 through 16.32.048 shall equally apply to buildings owned or leased or otherwise used by other governmental jurisdictions and to buildings generally for which a business license has not been procured, insofar as such buildings are within the coverage of the International Fire Code. Collection of the fees from said jurisdiction shall be accomplished by any available legal means.~~

**Section 10.** Corrections. The City Clerk and codifiers of this Ordinance are authorized to make necessary corrections to this Ordinance, including the correction of scrivener/clerical errors, references, ordinance numbering, section/subsection numbers, and any references thereto.

**Section 11.** Severability. The provisions of this ordinance are declared separate and severable. If any provisions of this ordinance or its application to any person or circumstances is held invalid, the remainder of this ordinance or application of the provision to other persons or circumstances, is unaffected.

**Section 12.** Ratification. Any act consistent with the authority and prior to the effective date of this ordinance is hereby ratified and affirmed.

**Section 13.** Effective Date. This ordinance takes effect January 1, 2026.
