## List of questions:

- 1) If this development fits in so well with the Comp Plan in which these new residents would walk, bike, or take the bus, then why do you need to improve 9<sup>th</sup> Ave SE to a neighborhood collector?----
- 2) How would putting a development of this type benefit the Eastside Neighborhood?
- 3) Why didn't this go through a process of subarea planning with the neighborhood, which is part of the comp plan?
- 4) Why did the city accept this application before the subarea planning structure part of the comp plan was implemented?
- 5) This one year period of moratorium on zoning changes should have been used to implement the structure for subarea planning and make this upzone a part of it. Or is this neighborhood meeting considered the "neighborhood participation" portion of the subarea planning in the comp plan?
- 6) If there is development in this area, it should be a "car free" complex, so no impact on traffic---is this a possibility?
- 7) Who will pay for the street upgrade at 9<sup>th</sup> Ave. SE? The developer or city residents?
- 8) What is the estimated cost of the neighborhood collector on 9<sup>th</sup> Ave SE?
- 9) Who benefits, besides the Medela LLC development, from a street upgrade?
- 10) How will the Eastside Neighborhood and the Indian Creek Neighborhood benefit from the upgrade on 9<sup>th</sup> Ave. SE?
- 11) Why wasn't the upgrade on 9<sup>th</sup> Ave. SE extended to the west of Boulevard, since this is the route the bus takes?
- 12) What do you anticipate will be the impact on fire and police services for a development of this type?

- 13) Will the city require sound barriers given that this area is next to I-5—since there is quite a bit of research about noise pollution nowadays? Who would pay for this---the developer or city residents?
- 14) Have any more measures been taken to protect Indian Creek? According to a study conducted by the city, 12 items had to be implemented before any upzones or development could take place---what is the status of these measures?
- 15) Please give 2 or 3 examples of similar development in the city that was constructed in the last 5 years.
