1. Briefly describe why you wish to serve on this advisory committee.

I have lived in the Olympia area for over 15 years and have always been interested in working with the local municipalities for the betterment of the community. Ever since I established residency in Olympia, I have looked for opportunities to work with the City of Olympia. Since the age of 17, I have always been involved in activities in the local communities that I have resided in. I enjoy being involved in my community and whenever possible I look for opportunities to give back to the community, whether it be a work party at a park or working with public offices. I feel that with my background, experience and skills, I can be a beneficial resource for the city as a member of this committee.

2. Describe your qualifications and/or skills which would benefit this advisory committee.

I consider myself to be a very organized and resourceful individual. Though out my life I have held many management positions, worked with individuals from many varied cultures, races, nationalities and religions. My travels and experiences have benefited me in that I am open to ideas and positions of individuals and groups that may have viewpoints I may not agree with. By being open to new ideas and allowing them expression of their concerns and desires, I have found that I can find common ground with others in order to achieve positive results in many varied situations. I have worked with and within the federal government for over 30 years in a variety of positions in the US and overseas, and have a good understanding of governmental procedures, protocols and polices. As a environmentally concerned citizen, I have a good working knowledge of our local environment, local and state issues and citizen concerns on development. I have worked on local committees, such as a citizens group to promote school levy propositions, a Thurston County Commissioners

advisory committee on an controversial ordinance proposal and I have served as the vice chair for a local group of the Sierra Club.

3. Describe your involvement in the Olympia Community.

In the time since I moved to Thurston County in 1997, I have worked with the following groups and organizations:

The North Thurston Public School District (Technology Committee); a citizens group that promoted several NTPSD levy measures; the Olympia YMCA as a Youth Sports coach; the Girl Scouts of America as a parent volunteer, the Boy Scouts of America as a parent volunteer and adult leader in several positions; as a volunteer for the StreamTeam in all 4 local jurisdictions (Olympia, Lacey, Tumwater & Thurston County); I assisted with the reformation of the local group for the Sierra Club and served as the group Vice-Chair; and finally I am volunteering as a street outreach counselor with the local branch of Stand Up for Kids, a non-profit organization that focuses on homeless youth under the age of 25.

4. Please state your current occupation.

I am currently working as a project development and healthcare construction project manager for the Facilities Management Division of the Madigan Army Medical Center at Joint Base Lewis-McChord. I am also the owner of a Service Disabled Veteran Owned Small Business focused on service contracts to the Federal Government.

5. List your educational and professional background and area of study.

I graduated high school in Reno, Nevada and have attended several colleges and universities. I received a BS degree in Sociology, with a minor in History from the State University of New York in 1994. I am currently continuing my professional education by pursuing a Certificate in Project Management at the South Puget Sound Community College.

1. Briefly describe why you wish to serve on this advisory committee.

As a real estate broker with an office in Olympia, and as a parent, I am interested in being involved in the future development of Olympia. My husband and I chose Olympia over many other places to settle back in 1998. Since then we have cemented our roles in our hyper-local community. As my children have grown and I have more time, I would like to extend my scope and become involved in making sure that Olympia continues to grow toward vibrancy. Because I often work with new people moving to our area, I want to be involved with the community so that I can make sure to have the knowledge of the direction Olympia is headed and to be able to share exciting new projects and plans with our newest community members. I am especially interested in the Shoreline Management revision as well as working toward a focus on waterfront access.

2. Describe your qualifications and/or skills which would benefit this advisory committee.

I have successfully run my real estate business for the past seven years, building it in a community that was new to me. To do so I have to be a fast, clear communicator and also be able to work with many different types of people. I am organized and able to problem solve on behalf of my clients.

3. Describe your involvement in the Olympia Community.

I practice real estate largely on the west side of Olympia and I work to know about local businesses, arts and community activities that I can tell my clients about. Through networking I have met local business owners and other professionals in the community who are concerned about the future of the city. My husband retired from his first profession here and we plan to make it our "forever home", and so I am committed to seeing Olympia retain the features that brought us here.
