

Hello, my name is Harriet Rambo. I find quiet reading, botany, and being outdoors to be fun pastimes. I am 12 years old and go to Jefferson Middle School for the JAMS program. When I was little I wanted to be an author, and share my stories and poems with the world. For a brief period of time I didn't know what I wanted to do when I was older. Now I have too many options, like a botanist, park ranger, or volcanologist. My passion is science. If I were mayor my focus would be on the environment, (and all the other important things too) for example there's an old establishment about to be demolished right by the Legislative Building. I don't know why it's being destroyed, but I have a thought >of what could replace it. A lot of forest spaces are being taken apart for housing, so what if we planted a wood of trees there? It would add to the natural beauty and help the environment. I know this might not be possible but it's just an idea of what I would want to do. Even if I were only Mayor for a day I would try my best to make sure everybody (or everything) was included, even the trees and wildlife around us. Thank you!

Warm regards, Harriet.E.P.R
