

AARON VAN AKEN, P.E., PTOE, MBA

Aaron has been employed with Heath & Associates for over six years as a transportation engineer. In his time employed, Aaron has worked on several projects varying in scope and size and in many counties and municipalities throughout the State of Washington. As a licensed engineer, his work has consisted of project planning, traffic impact analyses, parking studies, and large-scale master plans. Aaron has assisted in developing efficient and safe designs on a number of commercial, residential and public projects.
