About the TMP

The City is working on a Transportation Master Plan (TMP). Olympia is growing, and we need to plan a transportation system that will keep everyone moving. This is the first Transportation Master Plan for the City of Olympia.

The TMP will link the vision and goals in the City's Comprehensive Plan to projects we build. It will include prioritized project lists for bicycle, pedestrian, transit, and motor vehicle infrastructure. The plan will also include a 20-year funding strategy for all the projects.
