#### 4. Urban Waterfront (UW) District

This district is intended to:

- a. Integrate multiple land uses in the waterfront area of downtown and the West Bay in a way that improves the City's appeal and identity as the Capital City on Budd Inlet.
- b. Encourage high-amenity recreation, tourist-oriented, and commercial development which will enhance public access and use of the shoreline.
- c. Encourage development that protects views of Budd Inlet, the Olympics, Mt. Rainier, and the Capitol, and preserves a sense of openness on the waterfront.
- d. Encourage water-dependent and water-related development (as defined in the Shoreline Master Program for the Thurston Region) on shoreline properties and permit light manufacturing uses which support nearby industrial and marine related uses.
- e. Provide shoreline public access to significant numbers of the population, which is a major goal of the Shoreline Master Program for the Thurston Region. It is also the intent of this district to integrate the policies of the Shoreline Master Program for the Thurston Region into zoning designations applicable to waterfront properties. It is not the intent of this district, however, to make the restrictions of the Shoreline Master Program legally applicable outside the shoreline management zone.
