OLYMPIA, WA 98501

TO: Olympia Heritage Commission

FROM: Jill Satran
318 19th Ave SE
Olympia, WA 98501

DATE: October 3, 2017

I own a 1922 Craftsman bungalow in the South Capital neighborhood. I am working with an architectural engineer to finish my attic in order to extend the space available in my home. In order to make that space more inviting and usable and to provide egress in the case of an emergency, I am requesting approval to **replace an existing vent** in the front of the home with a window, hand-built by Eco Woodworks to replicate the style and craftsmanship of the home's original windows.

A picture of the front of my home, illustrating the window installed as planned, is provided for your consideration. As you can see, the planned window will not destroy any historic materials, features or spatial relationships that characterize the property. The window will be compatible with the historic materials, features, size, scale and proportion, and mass to protect the integrity of my home.

I would like to also add a similar window at the rear of the house, of equal quality and craftsmanship, also hand-crafted by Eco Woodworks.

I've worked hard over the years to retain and preserve the historic character of my home. I look forward to your approval of this request. Please let me know if you need additional information to proceed. I can be reached at 360.357.5329 or by email at jillsatran@comcast.net

Thank you!
