**WHEREAS**, the amount set forth below for Washington State Consolidated Technology Services agency, also known as Washington Technology Solutions or "WaTech," represents its cost for the 2017-2018 fire protection services agreement;

**NOW, THEREFORE**, in consideration of the mutual promises and covenants contained herein, the City of Olympia and Washington State Consolidated Technology Services, also known as Washington Technology Solutions or "WaTech," agree as follows:

#### **I. Purpose**

The purpose of this Agreement is for the **City of Olympia** to provide fire protection services for **Washington State Consolidated Technology Services**, also known as Washington Technology Solutions or "WaTech," as set forth in **Exhibit "A"** attached hereto and incorporated herein by reference.

In 2007, the Legislature authorized the Department of Information Services to lease develop or lease purchase a new office building and certain other facilities on the "Wheeler Block" in Olympia. Rather than authorize the issuance of bonds to finance a project to be developed by the state, the Legislature authorized DIS to enter into a financing contract for a project to be privately developed.

WaTech is the lease-holder of the space at 1500 Jefferson Street. FYI Properties, a non-profit formed by the National Development Council is the owner of the facilities at 1500 Jefferson Street. FYI Properties is a non-profit entity that assisted WaTech, formally known as Department of Information Services, in entering into a tax exempt lease/leaseback financing structure – sometimes referred to as a "63-20 financing and delivery method."

63-20 financings were first approved by the Internal Revenue Service in 1963. Under the 63-20 structure, 63-20 bonds are issued by a nonprofit corporation on behalf of the public agency pursuant to a trust indenture with a bank trustee. This issuance by the nonprofit differentiates the 63-20 financing from COPs, where the public entity is the issuer. The 63-20 bond proceeds are deposited in a project fund held by the trustee and used to finance the capital improvements (undertaken by the nonprofit corporation) that are leased to the public agency.

The nonprofit corporation, often through a private development company, designs and builds the project. The project may be operated and maintained either by the public agency itself under the lease from the nonprofit corporation or by the nonprofit corporation through a management contract with a private management firm. Title to the project typically is held by the nonprofit

during the life of the bonds. Title to the improvements is transferred to the public agency at lease maturity when the bonds issued by the nonprofit corporation are retired.

WaTech entered into a thirty-year financing contract with FYI Properties. Wright Runstad & Company also manages the building on behalf of FYI Properties. FYI Properties issued tax-exempt bonds in an amount sufficient to pay for design, construction and financing of the building. Wright Runstad & Company made draws from FYI Properties to pay for construction costs during the construction period. Upon completion of the construction, FYI Properties will "lease-back" all Project improvements to WaTech. At the end of the thirty-year lease term, FYI Properties will convey title to the building back to WaTech.

Since 2011, WaTech has explored whether or not it has both the statutory authority and an allocation to pay the contract for Fire Services. DES paid for the building in the past on behalf of WaTech without authorization. In a good faith effort to resolve the question of authority to pay fire protection services under RCW 52.30.020, CTS paid for one year of fire service in the past as well. Because of the nature of the financing contract at issue, WaTech is concerned it lacks authority under RCW 52.30 since 1500 Jefferson Street is not a State Owned building, however, CTS would like to recompense the City in order to maintain services and preserve the building as it has a long-term leasehold interest and will be the ultimate owner. As such, it is entering this agreement as an alternative mechanism for payment under its authority of RCW 43.105.

**Note on square footage changes in 2016:**

In 2016 the Thurston County Assessor's Office updated the square footage for the 1500 Jefferson Property. Previously the City believed that the property had 379,184 square feet. The number provided by the assessor in 2016 is 506,834. That correction of square footage drove the increase in total cost for this agreement compared to the previous year, calculated at a rate of \$0.2185359 per square foot, the same per square foot rate as applied to DES.
