Carl Watts, City of Olympia

LEOFF Disability Board

Ref: Claim for Hearin

Enclosed are the following:

- 1.) A referral letter to an audiologist from my primary Doctor,
 Providence Medical Group Hawks Prairie Family Medicine.
- 2.) Three (3) current hearing tests/exams. One each from Doctor referred Audiologist Tom Putaansuu from the Hearing Healthcare Center located at Lilly & Ensign rds, Olympia, Hearing Specialist Jamie Clauson from Tumwater Costco, and Hearing Specialist Gene Bowling from Miracle-Ear on College St, Lacey.
- 3.) You require two quotes from Audiologists, one being from Costco. However, Costco does not employ an audiologist, only Hearing Specialists. I have enclosed three (3) quotes: one from an Audiologist, one from Specialist Clauson (6 years experience) from Costco, and one from Specialist Bowling (19 years experience) from Miracle-Ear.

After experiencing the three different tests/exams, the trial fittings from each, the rapport I received with each, and my extensive research, I respectfully request to be allowed to obtain hearing aids from Miracle-Ear. Miracle-Ear's tests/exams were more thorough and extremely similar to that of the Audiologist. Costco's were not. Also, with technology changing so rapidly, it appears that Costco may be one year to one and a half years behind with their hearing aids.

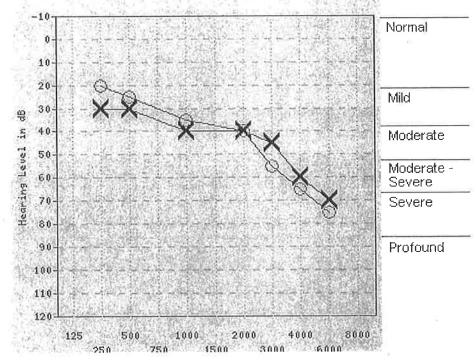

Thank you very much for your time and consideration,

I recently met with ______ ometric evaluation. After the hearing test we discussed the hearing aid options available to him. I recommended the Resound Forte RIC Hearing instruments. They are \$2499.99 for a pair. They come with a 3 year warranty and a 2 year Loss and damage. All care and maintenance is provided for no additional fee. These HA's are the newest digital and blue tooth technology. If you have any further questions please feel free to reach me at my office.
