Accessory Dwelling Units (ADUs) - REVISED Staff Recommendations

Some of the housing options under consideration by the City of Olympia have been modified by recent changes in state law (RCW 36.70A.600, which will be amended by House Bill 2343). Those changes to the state law will go into effect in June, prior to any amendments being adopted by the City. As a result, a change to the Staff Recommendations for ADUs that were issued in early March is now proposed.

The table below shows the standards in current city code, in state law, in state law once the revisions adopted by HB 2343 go into effect, the original staff recommendation, and the revised recommendation.

Current City Requirement	Option Being Considered (to implement the City would have to do <u>ALL</u> of these)	HB 2343 (separate options – the City can select which to implement)	ORIGINAL Proposed Staff Recommendation	REVISED Proposed Staff Recommendation
One off street	Do not require an	Do not require an	Do not require an	Do not require an
