OMC 18.06, Commercial Districts Chapter Section:

18.06.06 F

F. Drive-Through and Drive-In Uses.

1. High Density Corridor-[2 and 3 \(HDC-2 and HDC-3\)](#) Requirements. Businesses which serve customers exclusively in their vehicles are prohibited. This includes uses such as drive-through laundry pick-up agencies, drive-through-only banks, and drive-through photo processing services. This does not include car washes. Restaurants are **only not** permitted to have drive-up or drive-through facilities [if the building has existing drive through facilities, and complies with the fast food vehicular stacking requirements in 18.38.100](#)
2. Downtown Business and Urban Waterfront (UW) Requirements. Drive-through and drive-in uses are prohibited as a primary or accessory use (exception: drive-through banks are a conditional use). Existing drive-in and drive-through restaurants permitted before January 1, 1994, are conforming uses. Such uses shall be treated the same as other allowed uses, consistent with applicable regulations or conditional use requirements. Other uses made nonconforming by this zoning ordinance are subject to the requirements of Chapter 18.37, Nonconforming Buildings and Uses.
3. Pedestrian Streets and Drive-Through or Drive-In Uses. Drive-through and drive-in uses are allowed on parcels that abut pedestrian oriented streets, as follows:
 - a. A Streets: Drive-through or drive-in uses are permitted on parcels abutting Pedestrian Oriented A Streets when there is another building(s) or a designated pedestrian plaza or other gathering space located between the drive-through or drive-in building and the street. In the event a pedestrian plaza or gathering space is located between the building and an "A" Street, provisions to prevent vehicles from entering the plaza or gathering space shall be provided (e.g. curb and a landscaped area, bollards, low masonry wall).
 - b. B Streets: Drive-through lanes are prohibited between the pedestrian oriented street and the building. Drive-through lanes may be located to the side or rear of the building when designed for the safety of pedestrians or bicyclists on the sidewalk or other internal designated routes for pedestrians and/or bicyclists.
