

# Shoreline Master Program (SMP)

## About the SMP

The Shoreline Master Program (SMP) is a set of local policies and regulations adopted by the City under the State's Shoreline Management Act that generally applies to all major water bodies and lands within 200 feet of those waters.

## Periodic review

Every eight years, counties and cities must review the SMP to ensure it remains consistent with any changes in state law, the adopted Comprehensive Plan, and any changes in local circumstance.

The periodic review is not as involved as the “comprehensive update” that Olympia completed in 2015. The comprehensive update was a major rewrite of the SMP that took several years to complete.

For the periodic review, the Washington State Department of Ecology (Ecology) provides a checklist for us to identify and evaluate any needed revisions. Ecology also provides grant funds to help cover the costs associated with conducting the review. The City of Olympia will conduct this review in 2020 and the first half of 2021.

The public hearing was conducted jointly with the Washington State Department of Ecology on Jan. 11, 2021. The Planning Commission will provide a recommendation to the City Council regarding the proposed amendments.

Amendments must be approved by the City Council and the Department of Ecology.

## Next steps

The City is awaiting the results of the Washington State Department of Ecology's Initial Determination. Adjustments may be needed based on the results of the review. The City Council's Land Use and Environment Committee is tentatively scheduled to receive an update on the SMP Periodic Review on Thursday, April 15, 2021. The full Council may consider these amendments as soon as May 4, 2021.
