Background and Analysis:

This agreement with the IUOE was negotiated to succeed the current agreement, which expired on August 18, 2013. The contract sets forth the wages, hours, and working conditions for the six Operations Supervisor positions in Public Works. The bargaining unit has ratified the agreement.

The new agreement aligns with the terms (January-December) of the City's other collective bargaining agreements, ties a portion of the wage increase to city revenues, incorporates the City's new insurance structure, continues Longevity Pay (maintaining the wage gap between the IUOE supervisors and those they supervise), and incorporates by reference a policy regarding payment for CDL-related costs.

Neighborhood/Community Interests (if known):

None known.

Options:

1. Approve the proposed agreement.

Implications:

- The agreement meets the needs of the Council.
- The agreement balances the current economic climate and fiscal constraints with our need for competitiveness in the labor market.

2. Reject the proposed agreement.

Implications:

- This agreement does not meet the needs of the Council.
- The parties will return to negotiations.

Financial Impact:

The cost to the City for implementing this contract in 2013 is approximately \$3,620. A summary of the entire economic impact of the agreement is attached. The costs for 2014 and 2015 will be determined based on insurance costs and sales tax revenue.
