

Bicycle and Pedestrian Advisory Committee

Subcommittee on Bike Parking Code Compliance

Agenda Date: 2/26/2014
Agenda Item Number: 5a.
File Number: 14-0191

Type: discussion **Version:** 1 **Status:** Filed

Title

Subcommittee on Bike Parking Code Compliance

Recommended Action

Move to form subcommittee to review plans on new development for compliance with bike parking code.

Report

Issue:

Not all new development built in the City has been compliant with code requirements for bicycle parking.

Staff Contact:

Michelle Swanson, Senior Program Specialist Public Works Transportation, 360.753.8575.

Presenter(s):

Michelle Swanson, Senior Program Specialist Public Works Transportation

Background and Analysis:

In November 2013, BPAC received a report from Tom Hill, Building Official, on code compliance for bicycle parking on new construction. He offered to provide some building plans to BPAC for their review, so members can see examples of how bike parking is described on plans. The purpose of the subcommittee is to review those plans with a representative from Community Planning and Development and report back to the committee.

Neighborhood/Community Interests (if known):

Olympia Safe Streets, a community organization, has expressed concern about enforcement of bicycle parking on new development.

Options:

1. The committee moves to form the subcommittee.
2. The committee does not move to form the subcommittee. The committee may propose another action to take.
