Background and Analysis:

OFD has set a high safety standard for all emergency response vehicles in the fleet with maintenance by highly skilled and competent mechanics. This high standard has paid off in safer and more reliable front line and back up vehicles for Olympia, Thurston County Medic One, TCFD #3, TCFD #8, TCFD #9 and TCFD #13. It is well accepted that OFD's specialized level of service using a team of mechanics who are certified in Master Fire Apparatus and Emergency Vehicles, along with experience is difficult to find at a private repair facility. Most repair facilities are not solely specialized in repair of only emergency vehicles and cannot deliver the level of service needed.

The City of Tumwater has requested OFD mechanic's to provide repairs for their vehicles. This is a continuation of contracted services that started in 2011. When the City of Tumwater is assisting OFD during mutual aid responses, the apparatus that is travelling within our community has been repaired

at the highest safety level possible.

The City of Tumwater will reimburse the City of Olympia for this service based on the provisions in the attached Interlocal Agreement.
