Title

State Environmental Policy Act Options - Briefing

Recommended Action

Committee Recommendation:

No action required; briefing in preparation for substantive discussion later in 2015.

Report

Issue:

Washington's State Environmental Policy Act provides a variety of local options for varying from standard statewide procedures. Some of these have been previously considered and adopted by the City of Olympia. In 2015, the City will again be exploring these options; this time in conjunction with developing a new 'Downtown Strategy.' This briefing will provide the Commission with background information regarding this issue in preparation for considering specific proposals to be brought forward later in the year.

Presenter:

Leonard Bauer, Deputy Director, Community Planning and Development Department
