Title

Veterinary Clinic Zoning Code Amendment - Briefing

Recommended Action

Briefing only.

Report

Issue:

The City Council has referred to Planning Commission an expedited review of Olympia Municipal Code provisions related to veterinary offices/clinics. There are currently a very limited number of zoning districts in which such uses are permitted, and an increasing demand for these services in the community. Staff will provide a short introduction to this topic. A full briefing and public hearing are scheduled for the Commission's July 20, 2015, meeting.
