

Utility Advisory Committee Municipal Fiber Optic Update

Agenda Date: 11/5/2015
Agenda Item Number: 7.A
File Number: 15-1049

Type: information **Version:** 1 **Status:** Filed

Title

Municipal Fiber Optic Update

Recommended Action/UAC Deliverable

Briefing only

Report

Staff Contact:

Shawn Ward, IT Services LOB Director, 360.753.8069

Previous Items Before the UAC:

None

Background and Analysis:

The City's municipal fiber system is a complex network of conduit and fiber optics serving the City of Olympia and a number of state and local agency partners. Through interagency agreements and partnerships, a core fiber backbone has been established to connect a large number of public agencies to each other and to the internet. A comprehensive, citywide network is not in place or foreseeable in the near-term.

Staff will provide an update on municipal fiber history and current partnerships.

Financial Impact:

None at this time.
