**Staff Contact:**

Jeremy Graham, Associate Planner, 360.753.8097

**Background and Analysis:**

Under the State's National Pollutant Discharge Elimination System (NPDES) Municipal Phase II Stormwater Permit (Permit), the City of Olympia will submit at the end of March its Annual Report covering the 2015 calendar year and the annual update of the City's Stormwater Management Plan to the State Department of Ecology. The NPDES process requires local jurisdictions to develop effective stormwater management programs. In its role as a citizen committee, the City requests UAC's review and familiarity with the 2015 NPDES Annual Report and 2016 Stormwater Management Plan.

The August 2013-2018 Permit mandates continued implementation of the existing permit as well as new requirements.

The attached 2016 Stormwater Management Program Plan is still in draft format and will be completed prior to submitting to the Washington State Department of Ecology by March 31, 2016.
