##### **Background and Analysis:**

The first Earth Day on April 22, 1970 included an environmental teach-in that educated Americans about environmental and conservation issues.

20 million Americans took to the streets, parks, and auditoriums to call for a healthy, sustainable environment in massive coast-to-coast rallies. Thousands of colleges and universities organized demonstrations and teach-ins against the deterioration of the environment.

Earth Day 1970 activated a bipartisan spirit that motivated the passing of the Clean Air, Clean Water, and Endangered Species Acts. Many other groundbreaking environmental laws soon followed.

Earth Day had reached into its status as the largest secular observance in the world, celebrated by more than a billion people every year, and a day of action that changes human behavior and provokes policy changes.

In Olympia, the Procession of the Species was created in 1995 to commemorate the 25<sup>th</sup> anniversary of Earth Day. Local businesses, schools, environmental organizations and others have raised over 100 Earth flags in Olympia to unite those working in the interest of the planet, inspire participation, and build action through local activism and global environmental consciousness.
