Background and Analysis:

Recently, the City launched its second major public outreach tool in the development of the TMP, a story map. In addition, we have recently posted a summary of the feedback we got from the 2018 story map, which has informed the projects listed in the current one. Both the new story map and the summary from the 2018 one are available on the TMP webpage, link attached.

Staff will update the BPAC on where we are in the process of making the TMP and next steps.
