NPDES Annual Report

Agenda Date: 3/4/2021
Agenda Item Number:
File Number:21-0218

Type: report **Version:** 1 **Status:** Filed

Title

NPDES Annual Report

Recommended Action

Review and provide input.

Report

Issue:

Utility Advisory Committee (UAC) review of the 2020 NPDES Annual Report and the 2021 Stormwater Management Program Plan Update.

Staff Contacts:

Jeremy Graham, Associate Planner, 360.753.8097

Jesse Barham, Environmental Services Supervisor, 360.753.8164

Presenter:

Jeremy Graham, Associate Planner

Background and Analysis:

The City stormwater program is regulated under the National Pollutant Discharge Elimination System (NPDES) Municipal Phase II Stormwater Permit, administered by the Washington State Department of Ecology. The NPDES permit requires local jurisdictions to develop and implement a broad array of effective stormwater management planning efforts and programs. Staff will provide the UAC with brief overviews of the required 2020 NPDES Annual Report and 2021 Stormwater Management Plan. The City's stormwater program is consistently in compliance with State expectations.

Each March, the City submits an annual report and update of its stormwater management plan to Ecology. The UAC is designated as the City's citizen review element of the submittal process.

Staff will incorporate any UAC feedback into the Annual Report and Draft SWMP prior to submittal by March 31, 2021.

Neighborhood/Community Interests (if known):

Type: report **Version:** 1 **Status:** Filed

Protecting local waterways from pollution is important to many community stakeholders and neighborhoods.
