Background

Pursuant to Civil Service Rule V, Section 4, Removal of Names from Register, Chief Dibble requested that two names be removed from the Firefighter Register based on the fire background investigation, psychological examination, physical agility examination, or medical physical examination containing negative findings or that the candidate failed the medical physical or physical agility examinations.

The specific reasons for removal were reviewed by the Secretary-Examiner, and the reason has been determined to be supported by factual and verifiable information. In the interest of maintaining confidentiality for the candidates whose names were removed from the register, this report does not contain the specific reasons for requesting removal.

Findings:

The following candidates are not considered eligible for further consideration, because they did not successfully complete one or more phases of the selection process that firefighter candidates undergo after being placed on the register: Troy Smith and Michael Kelley. The candidates were notified in writing and neither has appealed.
