Background and Analysis:

For many years, PRAC members have annually performed park surveys at Olympia parks. PRAC members choose a park to evaluate during a spring meeting, and then in the Fall the members present their findings. Often the observations and park user feedback collected by PRAC members is then used by Parks Maintenance staff to make repairs or modifications at the parks. The following parks are in need of evaluation this year:

Evergreen Park

Margaret McKenny Park

Grass Lake Nature Park

Lions Park

West Bay Park

Isthmus Park

Yashiro Japanese Garden

Trillium Park

Bigelow Park
