Subject: West Bay Yards

Hello Interested Party,

You are receiving this email because you have indicated that you want to be informed of the project status of the West Bay Yards Shoreline Substantial Development Permit application currently under review by the City.

Status: The proposal has entered the second round of review. This means revised submittal documents were submitted by the applicant that are intended to address all of code deficiencies identified by the City in the review letter sent in September of 2021. The West Bay Yards website has been updated to include the revised submittals so that you have easy access to them. The City's Site Plan Review Committee and applicable outside agencies will spend the next few weeks reviewing these documents for code compliance. The results of this review will help determine the next steps in the project review.

Comments: If you have comments on the 2nd submittal, please provide them to me by **June 10 2022**. This is a soft deadline, comments received after this date will be included in the record and provided to the applicant. The deadline aligns with the anticipated completion of this 2nd round review cycle. This means that if your comments are of a technical nature and relate to code compliance meeting the deadline would ensure the comments would be reviewed by staff before the review cycle ends. This is not a code required comment period. All comments, regardless of when submitted, will be forwarded to the Hearing Examiner at the point a Hearing is scheduled (not yet). If you have already provided comments, you do not need to comment again, those comments are on file and will be forwarded to the Hearing Examiner. There is no limit to the number of public comments you can submit, but additional comment letters should address new topics/content.

Questions: Please contact me if you have questions. I am available by email or phone. If your question is of a technical nature outside my expertise, I will coordinate with the appropriate division to get you the information. Please note that questions / responses are not public comments and are not typically forwarded to the Hearing Examiner.

Nicole Floyd, AICP
